

Scientific conference
organized by the INED International Perspectives research group

Using EU-SILC for demographic analysis in Europe

Organizers: Aurélien Dasré (UPN/GTM-Cresppa/Ined), Angela Greulich (Paris I/CES/Ined)

29 June 2018

INED, 133, boulevard Davout, 75020 Paris
Salle Sauvy

Summary

The European Union Statistics of Income and Living Conditions (EU-SILC) is a unique data source, due to its' country coverage, the large set of socio-economic variables it provides and the possibility to merge household members. EU-SILC is not specifically designed to study demographic issues, but is becoming increasingly popular for demographic analysis. This conference aims to present different ways to use the EU-SILC to study fertility, marriage, and other aspects of demographic interest. The first part of the conference will be focused on the presentation of the dataset and on the quality of demographic measures. The second part will present demographic research based on EU-SILC.

¹ This conference benefited from the support of the French National Research Agency (contract ANR-16-CE41-0007-01 project Big_stat)

Program

9h00-9h30: Registration, Welcome Breakfast

9h30-9h45: Opening (Magda Tomasini)

9h45-12h15: EU-SILC: Introduction, quality, possibilities

9h45-10h15: EU-SILC presentation. (A.Greulich: Paris I/CES/Ined)

10h15-10h45: The French SILC: harmonization, integration and redesign issues (Pierre Lamarche: Insee)

10h45-11h: Coffee break

11h00-11h30: Using EU-SILC data for cross-national analysis: strengths, problems and recommendations (M.Iacovou: University of Cambridge)

11h30-12h00: Fertility Analysis with EU-SILC: A Quantification of Measurement Bias. (A. Dasré: UPN/GTM-CRESPPA/Ined)

12h00- 13h00: Lunch break (Buffet)

13h00- 18h00: Using EU-SILC for demographic analysis in Europe

13h00-13h30: Employment Impacts on Entry to Parenthood in Different Family-Policy Regimes. (M. Rendall: University of Maryland, USA)

13h30-14h00: Cross-country analysis of second births using EU-SILC data. (M.Klesment: Talinn University)

14h00-14h30: Job Instability and Fertility during the Economic Recession: EU Countries. (I.Giorgetti: Marche Polytechnic University)

14h30- 15h00: The later, the more? An analysis of the link between the timing and the intensity of births. (A.Greulich: Paris I/CES/Ined)

Coffee break 15h00-15h30

15h30-16h00: Partners' Educational Pairings and Fertility across Europe. (N.Nitsche: Wittgenstein Centre/VID)

16h00-16h30: Welfare regime patterns in the social class-fertility relationship: second births in France, Italy, Norway and United Kingdom. (P.Baizan: Pompeu University)

16H30-17H00: Extra time for discussion if needed.

17H00-17h30: Conclusion (Louis-André Vallet: Sciences Po Paris/ OSC)
