

The Demography of COVID-19 Deaths (<https://dc-covid.site.ined.fr/en/>)
Metadata Sheet for Switzerland
(Last revised 28/12/2021)

Source

Federal Office of Public Health (FOPH)

<https://www.bag.admin.ch/bag/en/home/krankheiten/ausbrueche-epidemien-pandemien/aktuelle-ausbrueche-epidemien/novel-cov/situation-schweiz-und-international.html#1905396240>

Coverage

Death of COVID-19 laboratory-confirmed cases occurred in all places (e.g. hospital, care homes, others) in Switzerland and the Principality of Liechtenstein.

Data collection method

The published data is based on information submitted by laboratories, doctors and hospitals. Reports come from the surveillance system and hospital records. Death counts are constantly under revision, the figures might therefore deviate from those communicated by the cantons. The time series coming from this data source and published in the excel sheet "FOPH_DailyTotal" includes death counts occurred since the beginning of the pandemic and may account for retrospective corrections.
