

PhD RECEPTION FORM AU FIL DE L'EAU (Funding outside Ined)

SUPERVISOR FORM

Supervisor

Surname – Name / Function / Level
Laboratory / Institution
Main research theme (axes (2 to 5) or list of keywords)
How many PhD students (in Ined and outside) do you manage (including PhD students awaiting for their funding) ?
Will you manage PhD students who have an Ined-iPOPs doctoral contract that is already signed ? If yes, how many ?

PhD Student

Surname – Name

Thesis project title

What was the context in the one you met the applicant ?

Did you read its Master's essay (or a temporary version) and how did you rate the work ?

Do you think the applicant will have the capacities to lead his research project during the agreed time (applicant's profile in line with the project, possible needs in additional formation for the applicant to pursue his project, data or domain thought about) ?

Does the applicant already have a professional project and how do you think you can help him in order to develop (or to define) it during his PhD ?

Your opinion about the thesis project

How would you scientifically describe the project (originality, importance, practicability, etc.) ?

In what the thesis project is related to the research programme of Ined (precise if the project is particularly related to Ined flagship projects) ? (only for the Ined supervisor)

In what this thesis project is related to your research projects ?

In your opinion, how long does this thesis project will take ? According to you, what are the aspects of the thesis that could result in extending its length compared to the initial calendar settled by the applicant ? What would be the solutions (extending the thesis, redefining some aspects of the project, etc.) ?

Your opinion about the thesis funding (only for the main director of the thesis)

How is/will the applicant be funded during his entire thesis project ? Precise the possible additional fundings.

Will the settlement of the thesis project need a specific budget (for the settlement of a domain, PhD student or supervisor's missions, etc.) ? If yes, what would be the other funding sources ?

PhD student management

Will you be director / main director / co-director of the thesis ? (cross the useless notes)

Name of the director / main director / co-director (cross the useless notes)

In which PhD school (name and number) and in which university will the PhD student be enrolled? What is the reception laboratory's name appearing on the thesis registration form ?

Do you know the other supervisor of the PhD student (if there is a co-direction) ? Do you work (or have you worked) together or co-directed theses ?

What would be your role specifically ? What do you think will be the frequency of meetings with the applicant during his thesis ?
